

ID	PIN #	Length in Miles	Lead Agency
23-2017-064	128830.00	3.44	City of Oak Ridge

County:
Anderson

Route	Total Project Cost
SR-62	\$2,955,000.00

Project Name:
Oak Ridge Signal Timing Optimization Program: Phase III

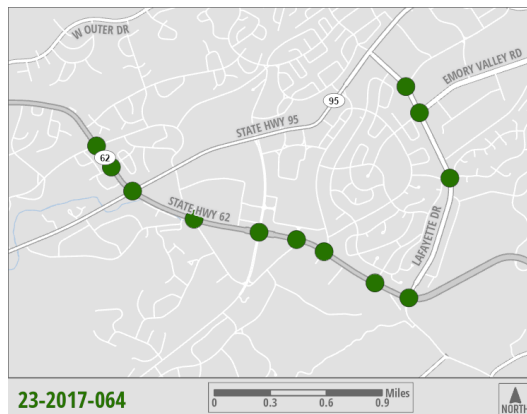

Termini
Project is primarily located along Illinois Ave, (SR 62) from Robertsville Rd to Lafayette Dr/Scarboro Rd, and along Lafayette Dr from Illinois Ave (SR 62) to Laboratory Rd

Project Description
Primary elements include the installation of advanced traffic controllers (ATC) the installation/replacement of wireless interconnects, the replacement of loop detectors with non-intrusive radar vehicle detection, installation of dedicated short-range communications (DSRC) equipment and the installation of flashing yellow arrow signal heads. Additional improvements include, but are not limited to, replacing signal heads with more efficient LED signal heads, installing accessible pedestrian signals at all intersections, signing and marking upgrades, and the reconstruction of curb ramps that are not ADA compliant.

Long Range Plan #	Conformity Status
19-100	Exempt

FY	Phase	Fund Code	Total Funds	Federal Funds	State Funds	Local Funds
2024	PE-D	CMAQ	\$269,000	\$269,000	\$0	\$0
2026	CONST	CMAQ	\$2,555,000	\$2,500,000	\$0	\$55,000
Total			\$2,824,000	\$2,769,000	\$0	\$55,000

Comments:
\$131,000 federal CMAQ previously obligated
Modification 205: Modify project to revise the project description to be more concise/clear. Excessive project details are removed from the project termini and description fields. The project map is also revised to reflect project work at the intersection of SR 95 (Oak Ridge Turnpike) and SR 62 (Illinois Ave.). No funds are added to the project, or TIP, with this modification and the total project cost remains \$2,955,000.

Good morning Kristen,

Please see the following and attached information summarizing a proposed modification to remove construction funding for an existing project in the FY 2023-2026 Knoxville TPO TIP. This modification is in response to the recent programming requests related to CMAQ fiscal constraint and the revised CMAQ process implementation guidance dated 10/29/24 (attached).

Proposed Modification # TBD - TIP ID# 23-2017-064: Oak Ridge Signal Timing Optimization Program: - Phase III:

Modify project to remove the construction phase. This modification removes \$2,555,000 CMAQ (\$2,500,000 federal/\$55,000 local) from this project and the TIP. The total project cost remains \$2,955,000.

As noted in the CMAQ implementation notice, the original CMAQ award is still available for the project. TPO staff will work with project sponsor to amend the TIP to program construction funds closer to the time of construction readiness.

Please respond with your concurrence/comments. I have copied Oak Ridge and TDOT Air Quality Office staff for their review of the requested modification as well.

Thanks.
