Subject: Air Quality Conformity Determination for Knoxville, TN

Dear Mr. Meservy:

The Federal Highway Administration (FHWA) Tennessee Division and Federal Transit Administration (FTA) Region IV Office, in coordination with the Environmental Protection Agency (EPA) Region IV Office, have reviewed the Air Quality Conformity Determination adopted by the Knoxville Regional Transportation Planning Organization (KRTPO) Executive Board on April 30, 2025.

The Air Quality Conformity Determination covers the Knoxville, TN maintenance area for the 1997 and 2008 8-hour ozone and the 2006 Daily PM_{2.5} National Ambient Air Quality Standards (NAAQS) and addresses 2025 Update of Metropolitan Transportation Plan, known as the Mobility Plan 2050 and FY 2023-2026 Transportation Improvement Program (TIP).

Based on our review, we find the documents conform to the ozone and PM_{2.5} NAAQS for Knoxville, Tennessee.

If you have any questions regarding this determination, please contact me at (615) 781-5788.

April 2025 TIP Amendment Profile Pages and Financial Tables.pdf;

Knoxville IAC Members,

As I have advised during the process for developing the new Metropolitan Transportation Plan, known as Mobility Plan 2050, there are several FY 2023-2026 Transportation Improvement Program (TIP) amendments that were identified as being needed to ensure that consistency between the MTP and TIP. In total there are eleven (11) proposed TIP amendments with the majority being projects that will be removed from the TIP based on their not being programmed in the TDOT 10-Year Project Plan. Attached is a complete set of TIP profile and financial tables for all amendments along with a summary of the actions being taken for each project. These actions are all consistent with how the projects were modeled for the accompanying Mobility Plan 2050 Conformity Determination Report which ensures air quality conformity of these amendments.

I wanted to highlight two of the amendments:

1. TIP Project #23-2014-042: City of Knoxville Traffic Control Equipment Upgrade -

This project amendment is not directly related to the Mobility Plan 2050 consistency aspect and instead would have been on the regular monthly TPO meeting agenda as a need to update the project's description and programming funding for remaining design elements with subsequent construction to be split out separately later for the two roadway corridors (Broadway and Kingston Pike) that are involved. This project was updated in the new Mobility Plan 2050 project list to split out into two separate projects with the new termini as proposed in this amendment. Additionally, this project was previously determined to be Exempt from the need to demonstrate air quality conformity.

2. TIP Project #23-2023-005: I-75 Widening -

This project is being added to the TIP as a result of the TDOT 10-Year Plan which included a section of the proposed widening of I-75 throughout Loudon County. This is the segment from U.S. 321 in Lenoir City to the I-40 & I-75 Junction, which represents approximately 3.5 miles of the overall 16-

mile corridor that was proposed for widening in the 2017 TDOT IMPROVE Act. The Mobility Plan 2050 was updated to reflect the earlier priority of this segment in the appropriate horizon year from the previous full project which was in the 2040 horizon year in the previous Mobility Plan 2045.

Since the vast majority of these amendments are the removal of projects the fiscal constraint is obviously not impacted as overall there are major funding reductions for the various formula funding programs as shown in the following table and a total net reduction of over \$57M.

	Federal		State	Local
CMAQ	\$ (8,104,575)	\$ (8,044,575)		\$ (60,000)
CRP	\$ (1,015,000)	\$ (812,000)		\$ (203,000)
STBG	\$ (13,500,000)	\$ (10,800,000)	\$ (2,700,000)	
NHPP	\$ (22,658,222)	\$ (18,126,578)	\$ (4,531,644)	
L-STBG	\$ (24,076,500)	\$ (19,261,200)		\$ (4,815,300)
HPP	\$ (305,526)	\$ (305,526)		
LOCAL	\$ (2,973,000)			\$ (2,973,000)
State	\$ 14,770,000		\$ 14,770,000	
Check sum	\$ (57,862,823)	\$ (57,349,879)	\$ 7,538,356	\$ (8,051,300)

Please review the attached information and advise if you have any questions or concerns. These amendments will be heard at the same meeting where the Mobility Plan 2050 and Conformity Determination is due to be adopted at the TPO Executive Board on April 30, 2025. I will also be reaching out soon to discuss preparations for addressing conformity of the FY 2026 - 2029 TIP that is under development and due to be adopted later this year. Thanks,

Mike
